OUR FINANCIAL INDEX

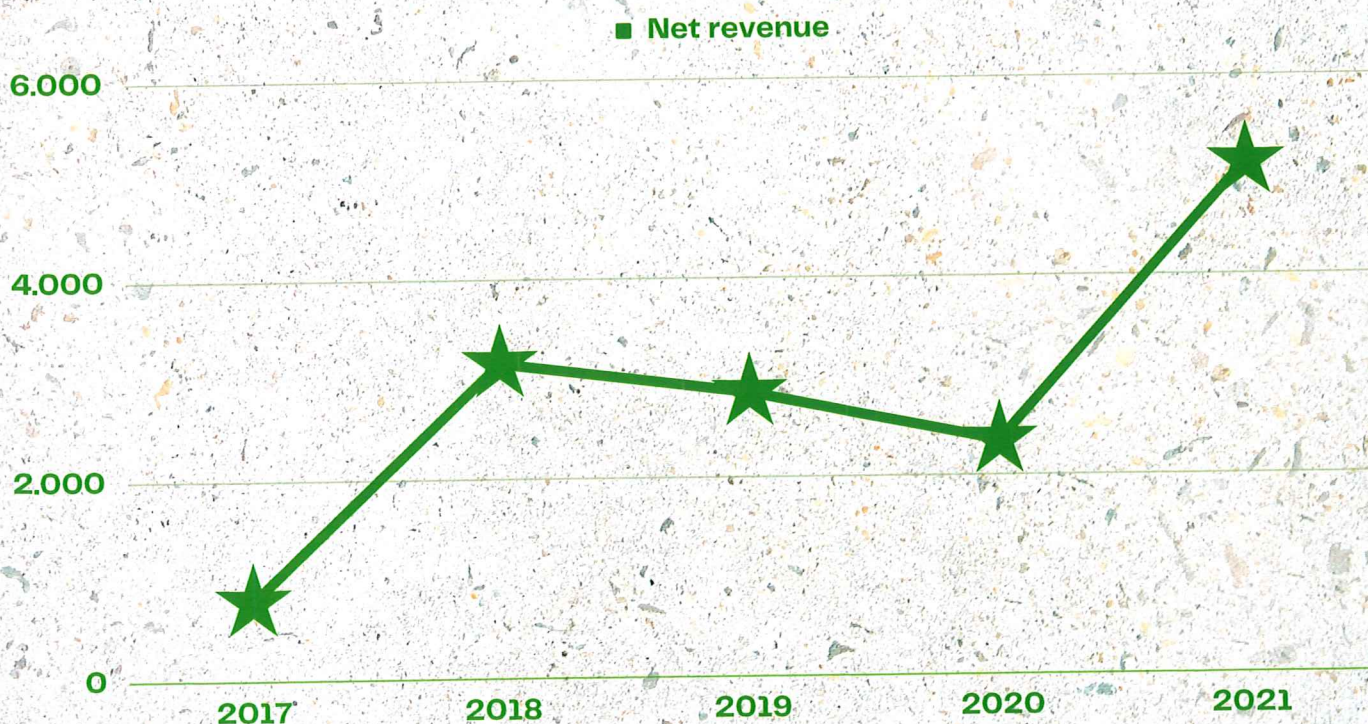

In 2021, the company's total assets were 1014 bilions, increasing by nearly 344 billion VND equivalent to 51% compared to 2020. We increased short-term assets to promptly meet production and business needs in the short term, this represents a business strategy towards strong growth.

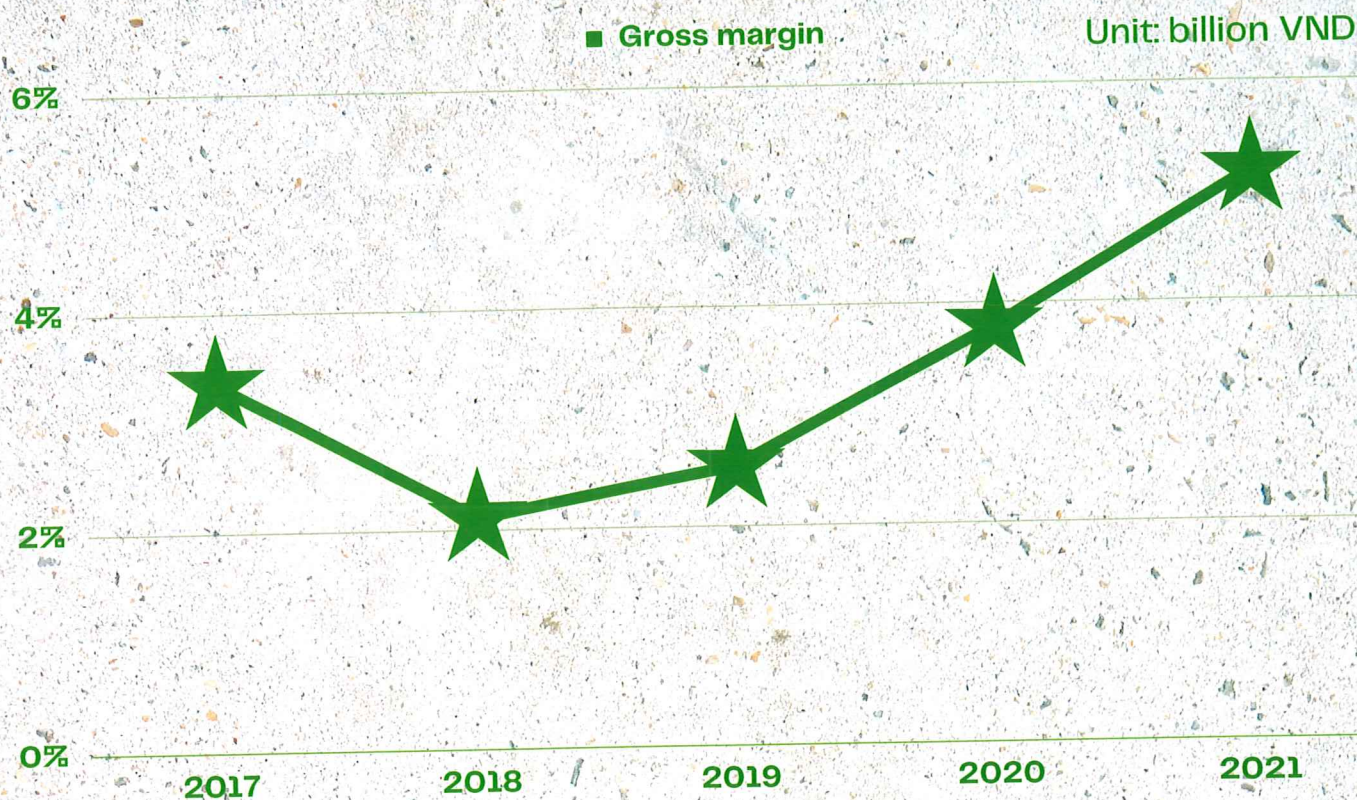

From 2017 to 2021, An Thanh Bicsol's receivables are usually the item that accounts for the largest proportion in the asset structure (50%). We always have a good and flexible credit term for our long-term valuable customers.

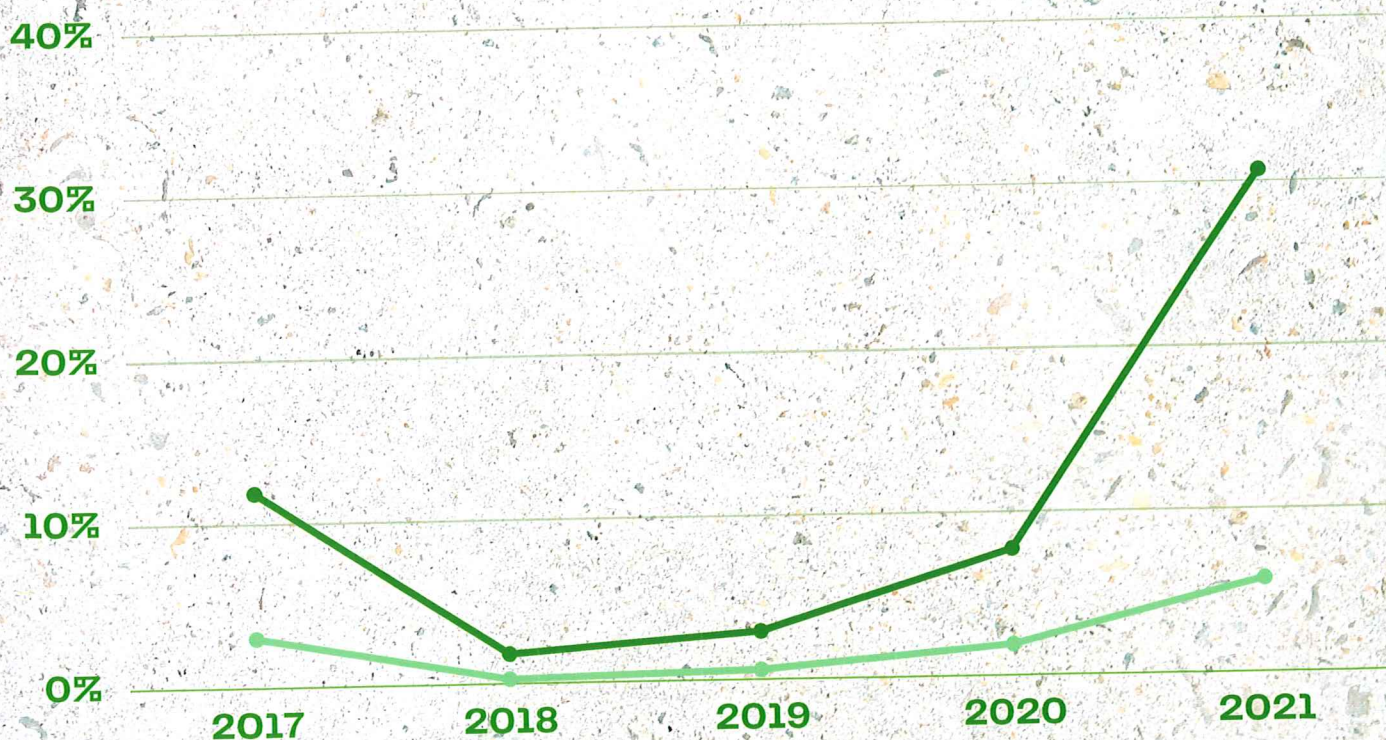

Our company had a slight decline in net revenue growth in the period of 2019-2020 due to the heavy impact of the Covid 19 pandemic. However a strong breakthrough growth rate and marginal target was recorded in 2021. However, in 2021, a strong breakthrough growth rate and marginal target was recorded. Gross profit also increased accordingly. We expands the market size and develops a network of potential customer partners.

Profitability: ROA – ROE (2017 – 2021)

ROE – ROA in 2021 of An Thanh Bicsol increased strongly in combination with other financial indicators; this affirms that the business strategy of the Board of Directors is correct and highly effective.
